

Pet Protector

A comprehensive online course that teaches you more about dog and cat health care.

Become a Pet Protector!

Pet Protector is an online program designed to teach you how to be the best pet owner you can be. It educates you on caring for dogs and cats and the importance of comprehensive preventative health care.

The course is written by qualified Veterinarians and Veterinary Nurses with decades of experience training clients in pet health care. Modules include pet body language, basic care, health requirements, infectious diseases and common emergency situations.

BONUS: Activities and resources to help parents motivate children to be involved in pet care.

What's included?

- 2 x four module online courses with video lessons
- Downloadable course notes to keep
- Learning activities and the tools to get children involved in pet care

Speak to your veterinary healthcare team to become a Pet Protector!
